### Terms & Conditions

- All special plant opening requests are contingent upon manpower and material availability.
- Requests must be received at least forty-eight (48) hours prior to the requested production date.
- Each plant opening is based on an eight (8) hour shift. Minimum daily production is 250 tons. Orders below the minimum required tons may be subject to production charges unless combined scheduled daily tonnage exceeds the minimum requirement.
- If production is required beyond the scheduled eight (8) hour shift, overtime or extended-hour charges will apply.
- Material produced for customer order and not picked up will be charged to the customer.
- Plant labor mobilization fees may apply for Kona and Kauai operations unless labor is already mobilized.
- The shift begins one (1) hour prior to the first scheduled load pickup and ends one (1) hour after the final load is taken.
